### **08/02/2018 – Keystone XL Pipeline Assessment in Nebraska**

The State Department has announced availability of the [Draft Environmental Assessment for the Proposed Keystone XL Pipeline Mainline Alternative Route in Nebraska](#). Comments are due August 29. The Draft EA evaluates the potential environmental impacts of the proposed Keystone XL Mainline Alternative Route — consistent with the National Environmental Policy Act of 1969— in support of the Bureau of Land Management's (BLM) review of TransCanada Keystone Pipeline, L.P.'s (TransCanada) application for a right-of-way. All comments received during the public comment period may be publicized. For details see, Notice: 83 FR 36659 (07/30/18), Agency Docket No. 10479; Document No. 2018-16241.
